Get Prepared for Colder Weather - it lowers our nasal defense system and viruses can easily enter our nose

Vaccination is an alternative to locking down, harsh mandates, and usage of hospital resources

The COVID-19 vaccine is the newest defense that could save time and money! Being sick is expensive.

Newer and Stronger Versions of COVID-19 are here - are you protected?

Covid-19 Vaccines are **free** at your local CVS and Walgreens

Hospitalizations are rising during the holiday season for 65+ adults because there is little immunity against new COVID-19 versions.

Without thinking about COVID-19, vaccinations have been the best method to prevent other illnesses such as the Flu or even measles from spreading as they did in the past.

Your body needs instructions to fight foreign invaders, and a vaccine will provide that info making you more proactive than reactive when fighting illness.
